

Lycée des métiers du génie électrique, des arts et des industries graphiques.

Former à un métier, éduquer à la vie

Erasmus+

● Don Bosco high school

France, officially known as the French Republic or "La Republique Francaise", is a democratic European country and a founding member of the European Union. It is also one of the five permanent members of the United Nations Security Council wielding veto power, and one of eight acknowledged nuclear powers.

France is the most popular destination in the world, receiving over 75 million foreign tourist annually. It is also home to the most visited paying tourist attraction in the world: Paris' Eiffel Tower.

DON BOSCO

130 YEARS OF HISTORY

Founded by Don Bosco himself, an Italian Catholic priest, in 1878.

Part of the International Salesian Society, a religious order created in the mid 19th century, which has now spread to many different countries worldwide.

Through works of charity, Saint John Bosco tried to care for the young and poor children of the industrial revolution.

Our project

Employing teaching methods based on love rather than punishment.

Welcoming the youngsters as they are and imparting them knowledge.

Providing a place :

For everyone and where we pay particular attention to those who have specific needs.

Where young people and adults alike are prepared for their future lives.

Where students can make sense of their lives, via the light of the Christian faith for those who desire.

Some data

A **privately-run** catholic school, «under contract» with the French Ministry of Education

750 Students : **90** teachers (academic & content subjects)

30 members of staff

85% males

50 classes

15% females
