Playing piano for my best friend
Charles Burton Barber

I choose this painting, because I like very much paintings with animals.

This painting is Victorian style painting

Here, we also can see a piano which is my favorite instrument

I like the attitude of the characters and how the girl look at hits "best friend", the dog.

It is kind and lovely.

The colors are nice and there is contrast between the waal and the yellow dress and the white dog.

For this art work, I used two chairs from my home, my electric piano and my dog.

It's me on the picture with a dress.

The girl is me

The dog is Marcel , my dog, a Jack Russel, just like on the painting.
